

**DaehanNetworks x MEP®**

MEP Group is a leading company in the rebar equipment manufacturing and in resistance welding technology and DaehanNetworks is a steel solution provider in the rebar processing and operation.

ARON has developed and launched based on the strengths of both companies. With ARON, the market of processing rebar will move forward with the advent of the industry 4.0 revolution.

**ARON solution**

ARON is an advanced solution of processed rebar manufacturing. It covers not only automation equipment but also operational management systems. We are getting closer to the automation of the end-to-end process through Industry 4.0

**Feature**

- Constant and continuous operation using the automatic robot controlled system
- Work order management and optimization via MES (Manufacturing Execution System)
- Web-based production information and monitoring system
